Cuba Fest

La Fiesta de la Cultura Cubana
En San Miguel de Allende, Guanajuato
¡Tiene Candela!

In 2017 Festival CUBAFEST SMA joins the cultural celebrations to be held on the occasion of the 115th anniversary of the diplomatic relationship between Mexico and Cuba.

The 14th issue of the Cuban Culture Festival in San Miguel will be dedicated to the famous Montuno of Cuba, Pío Leyva, on the centenary of his birth. Singer and composer who shared stage with Benny Moré, who successfully sang his compositions "Francisco Guayabal" and "Mulata con cola". However, the work that indisputably raised him to fame was "El Mentiroso," also known as "Pío Mentiroso" and later originated variants such as: "I am not a liar" or "Affectionate yes, no liar." Pío Leyva performed in prestigious international venues, including Carnegie Hall and Cervantino International Festival (FIC) where he sang with the group "Afro Cuban All Stars". And it was the main protagonist of the film of the German Wim Wenders: "The Sons of Cuba".

The 25th anniversary of the International School of Cinema and Television in San Antonio de los Baños, Cuba, attached to the Foundation of New Latin American Cinema and created on the initiative of the famous writer Gabriel García Márquez in Cuba, will be a special occasion to dress the billboard cinematography of this Cuban festival, in which will be special protagonist the documentary film of the Cuban director Roberto Chile: "Moments with Fidel", presented as a posthumous homage to the work and the thought of the giant of Birán.

The academic program will be in memory of the Physician Alfonso Herrera Franyuti, exalted Mexican researcher on the deep thought of José Martí. Franyuti, recently deceased, was recognized throughout Latin America as the national specialist who gave birth to the unpublished book "José Martí en México". This memorial will deal with the influence of the liberal mind of the Ignacio Ramírez Ignmuel Ramírez El Nigromante, in José Martí and Dr. Fidel Castro Ruz, historical leader of the Cuban revolution.
